2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)

The water rate was increased nearly 20% last year. I thought that was kind of high but understood that rising prices might be necessary. With the new projected increase request this year they will be raising their revenue by 1/2. I think that a 50% increase is unreasonable. I know many people that live in the area that don't have the water bill I already have. I will be paying as much, or more in some months, for water than I do for electricity. That is ridiculous!!! If they are having financial difficulties, maybe they should sell the company to someone that can manage it properly. As it is, the quality of my water is terrible and my bill is higher than people outside of Tega Cay. Maybe an independent analysis of where the money is actually going needs to be done. I doubt that they want that. I think that last year most did not complain loudly about last years increase. It scares me to think what might happen next year If nobody complains about this years increase. I think they need to work within their budget just as I do. I SAY NO TO THE INCREASE!!!!!!!

3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? \*

I will be happy to if I am in town. Unfortunately my job takes me out of town during the week most of the time. I never know until the last minute. I am not one you can schedule, but if I am in town I will be there.
